SPECIAL CATALOGUE

—OF—

Carriage and Coach

LAMPS,

NEW HAVEN, CONN.

—

JANUARY, 1887.

Special Notice.

All Lamps from No. 0 to No. 4 inclusive, except the No. 0, Excelsior, and No. 0, Streeter, will be put in PAPER BOXES, one pair in a box, thereby saving the unpapering of Lamps and assisting customers to keep their stock in a saleable condition.

ESTABLISHED 1838.

SPECIAL CATALOGUE

— OF —

CARRIAGE LAMPS.

1887.

NEW HAVEN:

THE STAFFORD PRINT, 86 TO 90 CROWN ST.

1887.

WE ask our customers to notice particularly the following remarks:

All Lamps made to burn have a PATENT FASTENED HEAD, which is so constructed that it CANNOT MELT APART, an advantage which will be appreciated by those who want Lamps for use as well as ornament.

IN ORDERING,

Customers will please be particular to state whether they want Gold or Silver Mounted Lamps, and bear in mind that, as a rule, *we do not keep in stock Lamps with Gold or Silver Stems*, but make them to order.

With very few exceptions, and these noted in Catalogue, we aim to keep in stock a full line of Lamps with Japanned Stems.

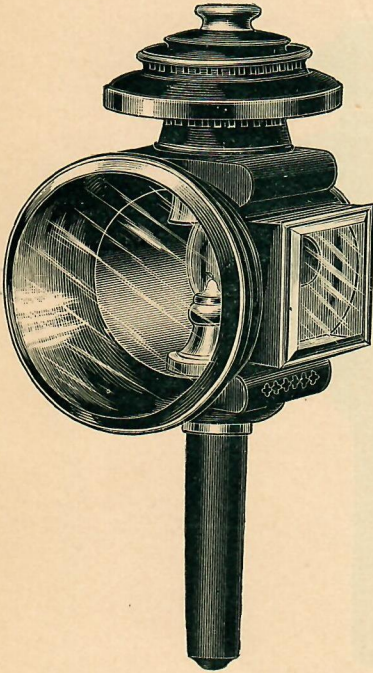

All Lamps in Catalogue, except No. 5, 6, 7, 8, 9, 10 Lamps, are made with Hook Prop. All exceptions to this are stated in this Catalogue.

No. 6-7-8-9-10 Lamps are made with the Patent Finger Prop. With these Lamps we furnish Irons.

ROYAL.

Cut A.

Cut B.

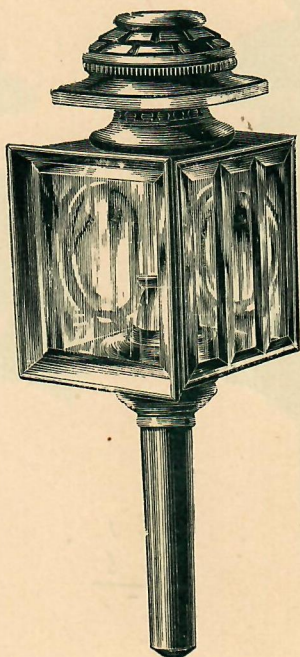

PATENT FINGER PROP.

We introduce the above cuts as the finest and best representations of a fine Lamp recently designed, and intended for all fine heavy work. The Front glass is swelled, and is backed by a very deep flange, which adds much to the brilliant effect of the Lamp. This Lamp is lined throughout with the best six-plate metal, and the mouldings are made of nickel silver, which prevents the show of wear usually seen on Coach Lamps.

PRICES FOR EITHER DESIGN AS BELOW.

No.	5.	Diameter of Front Flange, 6 inches,			per pair, \$17.50
"	6.	"	"	6 $\frac{1}{4}$	" 20.00

These Lamps are superior to any in the market, for the reason that they can be fitted to either side or top of the dash, and adjusted to throw the light in any direction; and when not wanted for carriage use, may be easily disconnected, and will be found to be an excellent and convenient Lamp for use about a barn, stable or elsewhere.

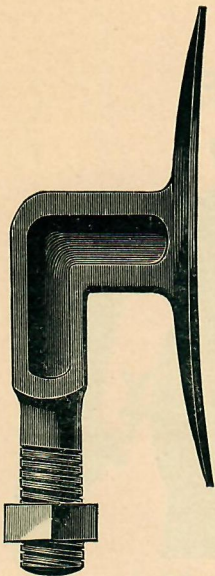

The No. 3 is provided with burners for either lamp oil or kerosene, and the kerosene burner has a long ratchet, so that the light may be regulated from the outside, which is a great advantage for outdoor use.

No. 2 Lamp is made for lamp oil only.
